State of Palestine

PRESS RELEASE

17 October 2018, Ramallah: Under the Patronage of H.E. Dr. Rami Hamdallah, UNFPA and the Palestinian Central Bureau of Statistics, launched UNFPA's *State of World Population Report (SWOP)*, and held a discussion on the 2017 Census results, and the population projections in Palestine by Dr. Youssef Courbage, international demographer. "Today, the State of World Population Report was also released globally, under the theme *"The Power of Choice, reproductive rights and demographic transitions"* Mr. Anders Thomsen, UNFPA Representative, said. "Following the launch of *Palestine 2030* report in December 2016, we are now opening the dialogue for more discussion on the demographic trends in Palestine, using data that were released following the launch of 2017 Census by PCBS, in order for UNFPA be able to reach the three zeros; 0 unmet needs, 0 maternal mortality, and 0 gender based violence" he continued.
You can view the full SWOP report in English and in Arabic on palestine.unfpa.org
