Palestinian Central Bureau of Statistics (PCBS)

Increase in the Producer Price[1] Index (PPI) during June,06/2021

The overall Producer Price Index (PPI) for Palestine with its base year (2019 = 100) reached 98.50 in June 2021, as it increased by 0.60% compared to May 2021.

PPI for locally consumed products

Producer Price Index for locally consumed products (2019 = 100) reached 97.97 in June 2021, which indicates an increase of 0.64% compared to May 2021.

PPI for local exported products

Producer Price Index for local exported products (2019 = 100) reached 103.46 in June 2021, which indicates an increase of 0.19% compared to May 2021.

The changes of PPI for June 2021 were traced back to changes in prices of the following major activities compared to the previous month:

Major Activities	%Change
Electricity, gas, steam and air conditioning supply	+ 5.94%
Manufacturing	+ 0.34%
Mining and quarrying	0.00%
Water supply; sewerage, waste management and remediation activities	- 1.05%
Agriculture, forestry and fishing goods	- 0.31%

Notice for Users:

- Due to COVID-19 pandemic and inability to conduct face-to-face interview, data for PPI has been collected using mobile phones.
- The data collection process for agricultural commodities, which is collected from the farm gate and data on industrial commodities for the month of June 2021 has been completed.

1 The producer's price is the amount receivable by the producer from the purchaser for a unit of a good or service produced as output minus any VAT, or similar deductible tax, invoiced to the purchaser. The producer's prices exclude any transport charges invoiced separately by the producer.
