Palestinian Central Bureau of Statistics (PCBS)

Palestinian Producer[1] Price Index, November, 11/2022

Decrease in the Producer Price Index (PPI) during November 2022

The overall Producer Price Index (PPI) for Palestine with its base year (2019 = 100) reached 106.42 in November 2022, as it decreased by 1.17% compared to October 2022.

PPI for locally consumed products

Producer Price Index for locally consumed products (2019 = 100) reached 106.21 in November 2022, which indicates a decrease of 1.27% compared to October 2022.

PPI for local exported products

Producer Price Index for local exported products (2019 = 100) reached 108.34 in November 2022, which indicates a decrease of 0.25% compared to October 2022.

The changes of PPI for November 2022 were traced back to changes in prices of the following major activities compared to the previous month:

Major Activities	% Change
Agriculture, forestry and fishing	- 5.05%
Electricity, gas, steam and air conditioning supply	+ 3.14%
Water supply; sewerage, waste management and remediation activities	+ 1.45%
Mining and quarrying	+ 1.13%
Manufacturing	+ 0.01%

Please note that the press release in English is brief compared to the Arabic version.

[1] The producer's price is the amount receivable by the producer from the purchaser for a unit of a good or service produced as output minus any VAT, or similar deductible tax, invoiced to the purchaser. The producer's prices exclude any transport charges invoiced separately by the producer.
