PALESTINE NATIONAL INVESTMENT PLAN 2020-2022

For Food and Nutrition Security and Sustainable Agriculture (SDG 2)

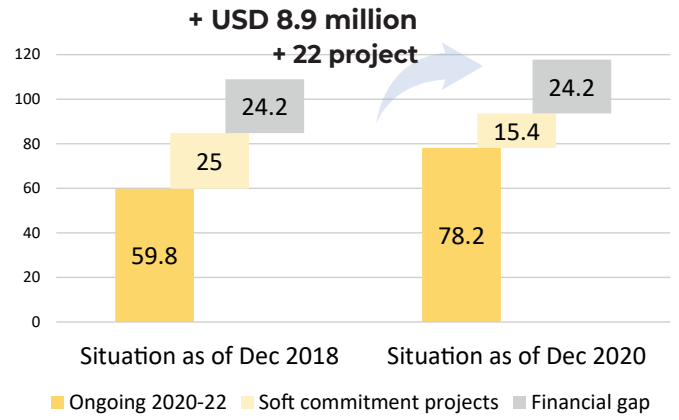

Component 3 : Sustainable and Inclusive Agri-food Value Chains Development

By adopting an approach that supports all segments of the agri-food value chains, this component will allow addressing key bottlenecks related to access to inputs, but also to knowledge for production, processing and marketing (at domestic level and to foreign markets). The expected outcome of this component is: « by 2022, competitiveness and inclusiveness levels of selected value chains are substantially increased. »

Targets for a number of indicators are still missing and need to be defined to guide fully informed and evidence-based planning and resource mobilization.

The NIP Monitoring Report aims at providing evidence on progress and gaps, supporting dialogue, alignment and harmonization of interventions along the national priorities identified in the NIP.
The NIP Monitoring Report is prepared in a participatory way by the SDG 2 Working Group under the Chairmanship of the Ministry of Agriculture (MoA) and with technical support of FAO Palestine Office and the FAO Investment Centre in the context of the FAO-EU Programme Food and Nutrition Security Imapct, Resilience, Sustainability and Transformation Project (FIRST). The monitoring exercise focuses on both the financial dimension of NIP (the investment projects to achieve NIP targets) and the physical dimension (progress towards SDG 2 targets and related aspects).
