PALESTINE NATIONAL INVESTMENT PLAN 2020-2022

For Food and Nutrition Security and Sustainable Agriculture (SDG 2)

Component 6 : Territorial and Co-Responsibility Approaches Promotion

This approach has been implemented by many actors in Palestine, especially among civil society organizations. The opportunity of such approach lies in its capacity to foster dialogue within the communities, between the communities and their immediately relevant administrative institutions, as well as between civil society and the government. The opportunity to foster a bottom-up mechanism to strengthen self-reliance, resilience and self-determination is not only a priority for the Palestinian society, but as such it is a powerful tool to ensure merging national efforts to support communities. The expected outcome of this component is: « by 2022, knowledge of territorial and co-responsibility approaches (TCA) implemented at local level and of their performance are collected, recognized and integrated in relevant national food and nutrition security policies. »

Overview of the First Year of Component 6 Execution: Ongoing and Planned Projects

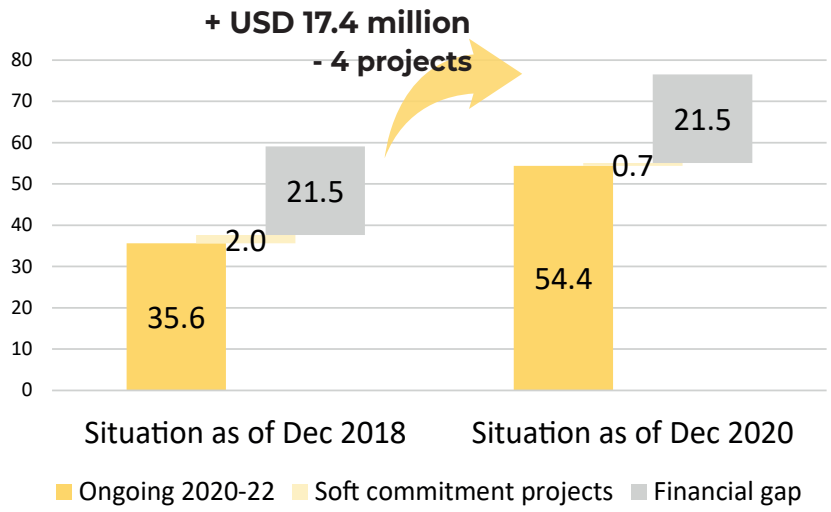

Due to the innovative nature of the proposed investment within the component, the indicators selected to measure progress on NIP Component 6 are specific to the approach proposed, and are not collected as part of the country's statistics, or other ministries' monitoring process.

Considering the potential larger role played by the civil society on the approach promoted in this component, during the next monitoring cycle, the SDG 2 WG will liaise with entities implementing projects under this component (e.g., the Municipal Development & Lending Fund (MDLF), civil society organizations).

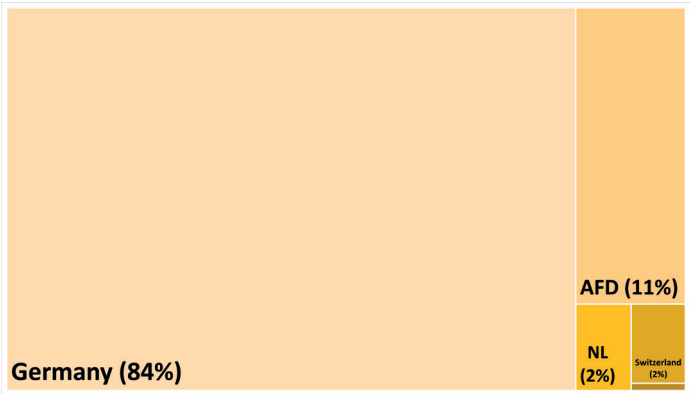

PALESTINE NATIONAL INVESTMENT PLAN 2020-2022

For Food and Nutrition Security and Sustainable Agriculture (SDG 2)

Update as of 12/2020

Major Financiers of Ongoing Projects

The NIP Monitoring Report aims at providing evidence on progress and gaps, supporting dialogue, alignment and harmonization of interventions along the national priorities identified in the NIP.

The NIP Monitoring Report is prepared in a participatory way by the SDG 2 Working Group under the Chairmanship of the Ministry of Agriculture (MoA) and with technical support of FAO Palestine Office and the FAO Investment Centre in the context of the FAO-EU Programme Food and Nutrition Security Imapct, Resilience, Sustainability and Transformation Project (FIRST). The monitoring exercise focuses on both the financial dimension of NIP (the investment projects to achieve NIP targets) and the physical dimension (progress towards SDG 2 targets and related aspects).
