Situation Report #41: Occupied Palestine
16 June – 23 June 2025 (until 10:00 AM)

The Government Communication Center at the Prime Minister's Office issues the Situation Report once a week. The next Situation Report will be issued on 30 June 2025.

Key Developments

DAY 626: ISRAEL'S ONGOING GENOCIDE AGAINST GAZA

The occupying Power, Israel, continues to carpet bomb, weaponize starvation and drought, and impose a total blockade on the Gaza Strip, repeatedly targeting civilians in makeshift shelters and others attempting to obtain food aid at the aid distribution centers of the Gaza "Humanitarian" Foundation. So far, such attacks have resulted in the killing of 450 Palestinians and the injury of 3,466 others. The deadliest attack occurred on 17 June, when the Israeli occupation forces (IOF) shelled a crowd in Khan Yunis, killing 70 people and wounding hundreds. According to many testimonies included in a recent article titled: "'The Hunger Games': Inside Israel's aid death traps for starving Gazans," Palestinians who go to these centers know they are likely to be killed, but they insist they have no other choice. UN Secretary-General António Guterres condemned these attacks, describing them as "unacceptable" and calling for an immediate and independent investigation. Moreover, the latest FAO-WFP Hunger Hotspots Report warned that 2.1 million Palestinians are at risk of famine, with food shortages expected to peak in September. Warning about the deteriorating health sector in Gaza, UNRWA said 45% of essential supplies were depleted, and nearly a quarter were expected to run out within six weeks. According to the UNOCHA, 82.4% of the Gaza Strip is currently declared an Israeli military zone or placed under displacement orders. Between 18 March and 17 June, over 680,000 Palestinians in the Gaza Strip were displaced.

DEPLETION OF BABY FORMULA THREATENS THE LIVES OF INFANTS IN GAZA

A medical source at Nasser Medical Complex in Khan Yunis warned last Friday of an imminent health disaster threatening the lives of infants due to the depletion of baby formula. The source said that hundreds of premature and newborn babies are between life and death, adding that milk stocks in health warehouses affiliated with local and international organizations are running low. He stated that despite making various appeals over the course of two weeks, "(t)he world is now preoccupied with the war between Iran and Israel, and on top of that, Gaza is suffering frequent disruptions to internet and communication services." According to the source, medical staff will be forced to substitute formula with intravenous solutions, which can pose health risks and might even lead to death.
