# Estimating trauma rehabilitation needs in Gaza: September 2025 update

2 October 2025 | Emergency situation update

Download (3.1 MB)

# Overview

This updated technical note delivers a sobering yet essential overview of the injury and rehabilitation crisis in Gaza, building on 2024 estimates with new data and deeper analysis. Despite the immense challenges of gathering accurate information amid ongoing conflict, the report triangulates multiple sources – including from Emergency Medical Teams, the Ministry of Health, medical evacuations, and rehabilitation services – to paint a comprehensive picture of the human toll.
