Situation Report #55: Occupied Palestine
22 September– 29 September 2025 (until 08:00 AM)

The Government Communication Center at the Prime Minister's Office issues the Situation Report once a week in English, Arabic, Spanish, and French. The next Situation Report will be issued on 6 October 2025.

Key Developments

DAY 724: ISRAEL'S ONGOING GENOCIDE IN GAZA

Over the past week, the Israeli occupation forces (IOF) have completely encircled Gaza City. Most neighborhoods and areas are now under Israeli military control, with ground forces and tanks moving toward al-Shifa Medical Complex. This rapid advance has displaced tens of thousands of Palestinian citizens to the southern and central parts of the Strip, amid heavy traffic jams and a lack of vehicles for many families, who have been forced to sleep on the ground near the IOF presence, despite the enormous risks. Still, hundreds of thousands of people remain in Gaza City "facing daily bombardment, famine and compromised access to means of survival," according to UNRWA. The New York Times published a report with satellite images showing how Israel has destroyed parts of Gaza City, the largest urban center in the Strip, with the IOF destroying neighborhood after another. Furthermore, the IOF's massacres continue inside civilian homes, displacement camps, and sites supposedly declared "safe" for civilians, resulting in the martyrdom of entire families, including Dr. Ismail Abu-Rkab, his wife, and their 16-year-old daughter. According to Haaretz, Israel's own data confirms the credibility of the documented death toll in Gaza, which indicates that the number of civilians killed in Gaza since October 2023 is the highest in any war in the 21st century. As of 21 September, medical sources confirmed the death of 447 Palestinians from starvation, including 147 children. At the aid distribution centers of the Gaza "Humanitarian" Foundation, the IOF has continued to target starved Palestinians seeking aid, killing 2,566 Palestinians and wounding around 18,769 others since 27 May 2025.

UNOCHA: FOUR HOSPITALS IN NORTHERN GAZA FORCED TO CLOSE IN SEPTEMBER

UNOCHA reported that since 1 September, four hospitals in North Gaza and Gaza governorates have been forced to shut down, reducing the total number of operational hospitals in Gaza to just 14. These include eight in Gaza City, three in Deir al-Balah, and three in Khan Younis. However, none of these hospitals are operating at full capacity. With the "Zikim" crossing in the northern Gaza Strip remaining closed since 12 September, combined with the halt of cargo entry from Jordan and the closure of all Gaza crossings on 23 and 24 September due to Jewish holidays, UNOCHA reported that "supply lines to the Gaza Strip, particularly to the famine-struck Gaza city, have been unpredictable." UNOCHA explained that ongoing bombardment, displacement, and the lack of necessary supplies are threatening lifesaving services in Gaza City, including healthcare facilities. Furthermore, UNRWA has reported that at least 370 of its employees have been killed in Gaza, and the destruction of most of its premises, including schools and health clinics.
