The Palestinian Cabinet Meeting Brief Statement, 11 July 2018

The Palestinian Cabinet upholds the position of the Palestinian leadership, led by President Abbas, dismissing any deal that disrespects the fundamental rights of the Palestinian people, deplores illegal Israeli measures imposed on Gaza and further demolition plans of Khan Al- Ahmar, and approves the establishment of a local commission for Khan Al-Ahmar affairs. The Palestinian Cabinet, headed by Prime Minister Dr. Rami Al-Hamdallah, expressed its support for the Palestinian leadership refusal of the so-called "deal of the century" or any other similar and related deals. Joint Statement by the Palestinian Presidency Bureau, the Palestine Liberation Organization and the Office of the Prime Minister on the Imminent Threat of Forcible Transfer Facing the Palestinian Bedouin Community of Khan al-Ahmar Abu al-Helu, 3 July 2018

The recent verdict of Israel's Supreme Court to forcibly transfer 35 Palestinian families and to entirely demolish the Palestinian Bedouin community of Khan al-Ahmar Abu al-Helu is another testament to Israel's culture of impunity that allows it to continue endangering the very existence of the Palestinian people on their land and to commit further grave violations of international law. There will be a war crime being committed before the eyes of the entire international community and yet nobody is willing to take concrete action to stop the Israeli occupation and to protect the Palestinian people, including by imposing sanctions against Israel and its colonial-settlement enterprise.

Statement by the Spokesperson on the Israeli decision to close the Kerem Shalom crossing point, 13 July 2018

The Israeli decision to close the Kerem Shalom crossing point, except for humanitarian supplies, and to restrict the fishing zone for Palestinians risks further aggravating the already dire economic situation in Gaza.

The EU expects Israel to reverse these decisions.

At the same time, Hamas and other actors in Gaza must cease and refrain from violent actions and provocations against Israel, including the launching of incendiary kites and balloons with the aim to damage Israeli property and assets.

The European Union fully joins and supports current efforts by the UN and other partners to reduce tensions, upkeep intra-Palestinian reconciliation and improve the humanitarian and economic situation in Gaza. This must be the focus of all sides now.

Statement by the Spokesperson on the demolitions in area C of the occupied West Bank, 5 July 2018

Bruxelles, 04/07/2018 Today, Israeli authorities have demolished structures in the Palestinian community of Abu Nuwar, and started preparations for demolishing the Palestinian community of

Khan Al-Ahmar, while resettling the residents against their will. The communities are located within or near the so-called E1 in area C, which is critical for the contiguity a future Palestinian state. These demolitions, together with plans for new settlement construction for Israelis in the same area, exacerbate threats to the viability of the two-state solution and further undermine prospects for a lasting peace.

Local statement on the abolition of the death penalty, 3 July 2018

The European Union Representative and the EU Heads of Mission in Jerusalem and Ramallah issue the following statement:

"The EU Missions in Jerusalem and Ramallah welcome the Palestinian signature of the Second Optional Protocol to the International Covenant on Civil and Political Rights, aiming at the abolition of the death penalty. This is an important step towards the definite abolition of the death penalty. The EU Missions in Jerusalem and Ramallah recall the EU's opposition under all circumstances to the use of capital punishment. The EU considers that abolition of the death penalty contributes to the protection of human dignity and the progressive development of human rights. It considers capital punishment to be cruel and inhuman, that it fails to provide deterrence to criminal behaviour, and represents an unacceptable denial of human dignity and integrity.

World Bank

World Bank report highlights what it takes to build a robust Palestinian startup ecosystem, 11 July 2018

JERUSALEM, July 11, 2018 - A new World Bank report "Tech startup ecosystem in West Bank and Gaza" finds that while the Palestinian startup ecosystem is at its early-stage and still maturing, it has highly educated founders and one of the highest rates of female entrepreneurs across analyzed ecosystems. However, the founders tend to be young with little managerial experience.

“In its four-year strategy, the World Bank put greater emphasis on creating a better enabling environment for private investments, ultimately job growth. Within that process, it is essential to

understand the dynamics of the Palestinian ecosystem and digital economy," said Marina Wes, World Bank Country Director for West Bank and Gaza.

Situation of Palestinian villages of Khan al-Ahmar and Abu Nuwar – Statement by the spokesperson of the Ministry for Europe and Foreign Affairs, July 4, 2018

Situation of Palestinian villages of Khan al-Ahmar and Abu Nuwar – Statement by the spokesperson of the Ministry for Europe and Foreign Affairs (July 4, 2018)France condemns the Israeli army's demolition this morning of several dwellings in the Palestinian village of Abu Nuwar (West Bank).It again expresses its deep concern about the situation of the Palestinian village of Khan al-Ahmar (West Bank), which the Israeli authorities have also issued orders to demolish; these could be carried out imminently. The result of these measures and the uncertainty they create is to make the already very precarious living conditions of the inhabitants of Abu Nuwar and Khan al-Ahmar more difficult. The villages are also located in an area which is essential for the continuity of a future Palestinian state and thus the viability of the two-state solution, which has been undermined today by the Israeli authorities' decisions.

Statement by the Federal Foreign Office on the impending demolition of Khan al-Ahmar, 3 July 2018

A Federal Foreign Office Spokesperson issued the following statement today (5 July) on the impending demolition of the Palestinian Bedouin village of Khan al-Ahmar:

"The demolition of the Palestinian Bedouin village of Khan al-Ahmar and the resulting relocation of its some 170 inhabitants – including over 90 children – appears imminent. Should this occur, it would be a severe blow to the prospects for Palestinian development in Area C of the West Bank. Khan al-Ahmar is situated close to the strategically important E1 area between East Jerusalem and Ma'ale Adumim settlement, where Israeli construction would significantly impair the possibility of a contiguous Palestinian state. Further demolitions in areas of importance to the construction of Israeli settlements are to be feared. In this context, we noted with the greatest concern that several houses were already demolished yesterday in Abu Nuwar village, which directly borders on Ma'ale Adumim.
